—O—

I, the undersigned, Auditor appointed to settle with the selectmen and treasurer, have examined their accounts, and find them well vouched and correctly cast.

HIRAM PARKER, Auditor.

Lempster, March 1, 1890.

## SCHOOL REPORT.

---

No. 1. This was a union of Numbers 1 and 8, and had three terms during the year, under the instruction of Miss Addie C. Currier. The same interest and affection between teacher and scholar that had been so noticable in former terms, existed through the entire year. Though this is the largest school in town, it is not the most advanced. Good improvement was manifested at the close of each term, and we feel to congratulate the patrons, teacher and scholars, upon the work accomplished during the year.

No. 2. Miss Jennie Jameson teacher for the summer term, and Joseph A. Cutts for the winter term. Both terms were a success, and the scholars seemed to take an interest in the school, especially the winter term, and made good progress.

No. 3. Miss Hester S. Porter teacher for the summer term, and Miss Georgie C. Purington of Goshen, for the fall term. Here we find some of our best scholars, and with two good teachers, the work accomplished was all that could be expected, and the schools may truly be considered a success.

No. 4. There was only one term of nine weeks in the summer, taught by Miss Abbie E. Hodgman. This was her first attempt at teaching, and with more experience and energy, it is hoped she may become one of our good teachers.

No. 5. There were two terms of nine and ten weeks, during the year, taught by Miss J. Amanda Leach of Newbury. Miss Leach is an experienced teacher, and has had charge of this school in the past to the acceptance of the patrons of the district. The school is small in number, but we find some excellent scholars. Those that attend school to do honest work.

No. 6. Miss Lillian M. Maddocks taught a summer term of nine

weeks with only five pupils, making the tuition over \$6.00 a scholar. If these scholars could be united with some other school by paying a certain per cent, we would most assuredly advise it. We think Miss M. accomplished all we could expect from so small a school.

No. 7. Kate C. Allen, teacher of summer and fall terms. We have no hesitation in saying the school gave the best evidence of thorough and efficient instruction.

No. 8. Lena M. Bruce teacher of summer term. This was Miss Bruce's first experience as teacher. If we were to criticise it would be in point of order; but with more experience, like many others, she may be a good teacher.

The winter term of eleven weeks was taught by M. Addie Morse of Alstead. As this was a term intended for the benefit of all the schools in town, many of our advanced scholars availed themselves of this golden opportunity, in all, to the number of 28. Miss Morse is a teacher of much experience, and not only labors herself, but has the faculty of inducing her pupils to labor also, and her drill was thorough and practical. It was particularly noticable in reading. She took great pains to instruct her classes in the grammatical construction of sentences, the use of capitals, etc. The board would take this opportunity, while giving credit for progress and good work in this school, to remind the teachers of the several schools that perfection in reading lies afar off, and no pains bestowed upon it can possibly be superfluous. The examination was good, and the public evening entertainment was very finely given to a large and appreciative audience, at the close of the term.

#### SCHOOL BUILDINGS.

While none of the school-houses in town are just what they should be, they are with one exception (No. 8) comfortable, but will in the near future need repairing. Under the existing uncertainty of the settlement of the school question, the Board have considered it unwise to expend much for repairs. Whatever course is taken, whether we remain as now, a town organization, or return to the old district system, some changes must be made for the best interest of all. We would submit to the serious consideration of the voters of the town the following: The union of Nos. 1 and 8, of 2 and 3, No. 6 united with Marlow, and No 5 united with Nos. 1 and 7. This of course would cause some changing of the present school buildings in locality, but when made, we feel that it would be a great improvement in our school system.

## GENERAL REMARKS.

The work that has been done during the school year has been all we could have reason to expect—not that it is all we would desire. No school has come near being a failure, and *most* of them have been a success. The people have taken a deeper interest, more enthusiasm on the part of pupils, and better work by the teachers generally. The registers make a better showing—quite marked in regard to tardiness, but absent marks are too numerous. When parents can realize the importance of their children improving every day and hour, for when time is lost it is gone forever, they will make greater exertions for prompt and steady attendance, and thereby reap a fuller harvest. Citizens of Lempster, whatever other interest may fail in this good old town of Lempster, upon whose history memory loves to linger, and who can point with pride to its record, let not the educational interest decline in the least, but plant its standard higher, and yet higher, for in it is anchored *our* safety, and the safety of generations to yet to come.
